

Rasdale Stamp Company

Welcome to the First Session of the 431st Public Auction

PLEASE NOTE THERE HAS BEEN A CHANGE TO THE ORDER OF THE AUCTION. The first session is highlighted by a November acquisition of the 140 carton mountain of stamps (see our Facebook page for a photo of our trailer). The Empire estate, an astounding accumulation of collections, stock books, binders, auction and sales pages going back to the 1940's ending in the early 1970's with strength in United States and Canada. Over 200 man hours were needed to meticulously sift through every box, book, page, glassine, non-descript bag or envelope to unearth scarce and or valuable items. The owner was a K. Bileski and New York auction houses customer extraordinaire. We found receipts showing him spending hundreds of dollars a week in the 1940's to thousands in the 1970's. The collector would buy advance collections extracting the better examples to build a core collection resulting in a powerful 19th and 20th century front and back of the book items while the remaining secondary collections are quite advanced. Auction and sales pages from the 1940's filled dozens of boxes that ended up as the major portion of the United States and Canadian singles section while still leaving hundreds of medium to high cataloging items to be offered in our famous pizza size boxes. In closing, the Empire estate was donated to a non-profit organization that helps health and human care initiatives get off the ground by providing the initial funding and support they need to thrive. We are proud and honored we were chosen to help with their cause. Rounding out the first session is a wonderful selection of Civil War Patriotic single cover lots and more from the Peninsula estate of Chinese covers.

UNITED STATES COLLECTIONS, ACCUMULATIONS, STOCKS

- 45 ★/○ **Powerful dealer's stock** in four small six ring counterbooks accurately identified and graded. The 19th century holds the bulk of the value with the 20th century valuable enough to warrant attention. The regulars, airs, special deliveries, dues, officials are all helpful. Some duplication but not at all excessive. Refer to the web photos as there is too much to mention. Condition is mixed. Offered appropriately. **(Webphoto) S.B. 11,000.00**
- 46 ★/○ **The magnificent mainly mint 1851 to 1932 core collection from the Empire estate.** As to be expected everything has been hinged with the blocks and plate blocks the old fashion way of both top and bottom. Gleefully placed on quadrille pages that are prepared handsomely with a precise artwork. The collector appreciated large chunks of mint blocks in the Parcel Post, blocks of Columbian up to the \$1.00. Additional contributions to the assembly are proofs, specimens, and samples of the later Banknotes. Strangely, the Washington-Franklins are missing. The smaller used section are #'s 14, 17, 69-72, 76-78, 83, 85, 153-155, 166. Condition and centering is mixed. A truly impressive presentation of value that was constructed in the early 1930's as exhibited by some notations at the bottom of a few pages. **(Webphoto) S.B. 10,000.00**
- 47 ○/★ **A mostly used stock in six red boxes from an old time dealer from the Great Lakes State.** A decent balance of lower, medium and a few higher value items. The mid-1930s start to turn mint. - 100 ★★/★ **In 1971 the USPS tried to get into the “Prestige” philatelic market** by buying up Scott # 230 in mint condition with the goal of repackaging them for collectors at a profit. They were only able to procure around 1,000 of them for this endeavor. What they came up with was reported in philatelic release no. 93 as a new book “The Sea” described as “limited edition of 998 copies”, “artistic” with “superb photographs and poetry”. Each book in its lucite holder was sold at the price of \$300.00. The owner tried to obtain three copies, but only was able to get one as an investment. It has sat in its original mailer along with the 1971 press release for the last 44 years. Never on display. We have never seen a copy of this official USPS publication before and look to the secondary market to determine its true value. Truly rare with a printing of only 998. (Webphoto) S.B. 300.00
