LITERATURE AND SUPPLIES

- 1 📖 **The Royal Philatelic Collection, by Sir John Wilson, the Keeper of the Royal Philatelic Collection and edited by Clarence Winchester.** This book presents the foundation and the development of the Royal Philatelic Collection in a manner worthy of its importance. There are 12 large lithographed color plates in this book, all sunk on card stock and proof like in quality and with glassine overlays over each. There are also a large number of illustrations in black and white. Large (10½" x 14½") in size, has bright red covers, weighs 12 pounds. Published in 1952 with the "Gracious Permission of His Majesty King George the Sixth". Pages are on light weight card stock, with the printing and the color plates nothing short of exquisite. The book is in clean, excellent condition without any obvious binding problems. The original cloth covered slip case is also included, but it is in poor condition with an unforgivable old auction label attached. A rare, magnificent book for your library. **S.B. 400.00**
- 2 📖 **"Encyclopedia of the Colors of United States Postage Stamps" by R. H. White.** Two binders containing volumes 1-4 complete. Pages fresh and clean. Hardly ever used. No slipcases. Rare and out of print. Essential to the collector of early US stamps. **S.B. 300.00**
- 3 📖 **Ten cartons (approximately shipping weight of 500 pounds) United States and worldwide philatelic literature.** Nearly 250 hard, soft cover books, pamphlets, and brochures offering a wide range of information. Published mainly from the mid-20th Century to the end. Knowledge is golden and reading this material will make you feel like King Midas. **S.B. 250.00**
- 4 📖 **German Philatelic Society (GPS) fifteen volume set of Reference Manual of Forgeries** by Dr. Werner M. Bohne published in 1975. **S.B. 150.00**
- 5 📖 **Around seventy hard and soft cover books and pamphlets from the Witt estate** in five cartons. Includes Space, Airmail, Rocket Mail etc. reference material. This lot could be right up your reading alley. **S.B. 150.00**
- 6 📖 **A small philatelic library from an old time customer.** All Forty-nine different items have been captured in an image. Shipping weight is 78 lbs. Call or email for a rate quote. *U.S. addresses only.* **S.B. 150.00**

- 8 📖 **Old International Brownie Nineteenth Century Album** in better than most in seemingly intact condition. The first in the 1919 printing series. Around 100 or so stamps used to be inside, but long ago the were removed. Toning, a little foxing, a few hinge remnants, and a long ago repaired binding are its only faults. Would make an interesting historic place to build a pre 1900 collection. **S.B. 100.00**
- 9 📖 **American Stampless Cover Catalog, three volume 1997, Fifth Edition.** Lightly used with few if any flaws. Ready for your library. **S.B. 100.00**

- 12 📖 **Three cartons of mainly Scandinavian literature from the 1930s to 2003.** Comprises roughly 75 hand, soft cover books and pamphlets. Also includes about a half carton of mostly blank page supplies. Shipping weight is roughly 150 pounds. Great reference material for the specialist. **S.B. 75.00**
- 13 📖 **Encyclopedia of the Colors of the United States Postage Stamps, Vols.I-IV, and The Papers and Gums of the United States Postage Stamps 1847-1909 by R.H. White.** All three includes a slip case, VF. **S.B. 75.00**
- 14 ○ **Huge number of used Scott Specialty (46) and International albums** filling eleven cartons. Few if any stamps, sparse at best. Many with no stamps at all remaining. More crystal mounts than stamps. The binders are generally clean, but the pages have Scott numbers written in and under the spaces in red pen. Much of which will be hidden by the stamps or mounts when filled. Plenty of Country albums that are now either out of print or difficult to obtain in the secondary market. The old style two post binders alone sell for big money on the internet. Great way to start a collection. Heavy over 380 pounds shipping weight. **S.B. 650.00**
- 15 ○ **Hula Jerry Minion find: 75 unopened packages of Dennison (red, white, and blue pack) hinges** stuffed in their original box of 50 from the company. Box a little rough but intact. - 142 ★ **"Astronaut signed Moonwalkers Lithograph by Ron Lewis #555/1000.** Complete with Novaspace Galleries Certificate of Authenticity. Rare if not unknown in the secondary market and described by the original seller as: ""There's a long, long story behind this one. Simply, this print was first begun in 1986, but out-lived three of the signees before it even became available to the public. It emerged from years of litigation and false starts, and now the signing astronauts have specifically asked Novaspace to finally give it the exposure it deserves. The late Jim Irwin was the first to sign, and 10 other moonwalkers have added their autographs over the years. All 6 lunar landings are represented. A total of ELEVEN moonwalkers have signed this print: Buzz Aldrin, Pete Conrad, Alan Bean, Alan Shepard, Edgar Mitchell, Jim Irwin, Dave Scott, Charlie Duke, John Young, Gene Cernan and Jack Schmitt. All unquestionably authentic. The signing astronauts OWN this edition and Novaspace is the ONLY place you can get one. The remaining moonwalker - Neil Armstrong, quit signing over 15 years ago, so this is considered complete. If he did sign, the price would be unreachable to all but the very rich. This print measures an enormous 25x31, and framed it is 33x39. It was painted by artist Ron Lewis, in an edition of 1000, signed and numbered. It is printed on acid-free, very heavy stock in pristine condition, despite being handled repeatedly over nearly 20 years. They were even shipped to us in custom-made, locked metal crates! Each portrait was done from the astronaut's NASA WSS (white space suit) portrait, and beside each bust is a little vignette of the astronaut in action, doing something unique to him on the moon (Conrad with Surveyor, Shepard's chip shot...) It makes a nice, large, displayable vehicle for these historic signatures. "This one has been altered. The previous owner (Woody Witt) wanted a complete set of TWELVE signed moonwalkers to grace his office wall so he added a double FDC moon landing cover signed by Neil Armstrong at the top left in the matting, over the undamaged lithograph to complete his presentation. Unique, one of a kind, with excellent provenance. See the webphotos. Large frame 32" x 37.5" will dominate a room. **Shipping will elicit a surcharge for glass and oversize. US shipping only.** **S.B. 3000.00**
