

Welcome to the First Session of the 454th Public Auction

Welcome to the 1st of the four public auctions scheduled for 2023. Again, we are offering properties from over 100 consignors. The auction should have something for everyone. There are over 80 US collections and accumulations with suggested bids ranging from \$60.00 to \$3,500.00. Additionally, there are over 60 cover and picture postcard lots along with more than 20 postage lots, several with a probable value of over \$1,000.00. Lastly, there are over 100 sets and singles, many with certificates. The worldwide has many of the ever-popular multiple box lots that contain various contents and/or country groupings. The country collections are notable for the Asia and British spread through the section. The sets and singles are strong in British with many Stanley Gibbons listed varieties. The coin section is the best offering in some time. Not to be overlooked is the U. S. Grant autograph in our usual varied "other collectable" section. This section features a massive model train collection from rural central Michigan assembled over many decades. We look forward to hearing from all our customer friends because "there is something for everyone".
