

**Welcome to the First Session of the 463rd Public Auction**

Here we are for our second sale in 2025. It contains material from several dozen consignors including the second installment from the Gopher and Golden Flyer Estates. We are sure you will find something of interest as the sale has a wide array of material. Saturday's selection is packed with original collector-made collections along with dealer's stocks offered intact with all the key items left in. The session begins with U.S. bread and butter type collections followed by specialized cancel groupings and graded holdings. Also, of note are the many British and Latin American country groups. Make sure to take note of the cover section. It is the largest selection of both collections and singles we have offered for some time.

The singles and sets portion of the sale is loaded with graded and certified U.S. items. The 19th century is particularly notable for the many affordable cancel varieties. Additionally, the worldwide section is especially strong with various British stamps.

We, at Rasdale's, always appreciate seeing our customers for the in-person viewing. However, if this is not possible, please check out the copious pictures on our website.
